The only way I can see getting 37 segments is if you allow for 3 more above RM 11 where the maps I was working from stop

Subject: Fate and Transport Segment Rationale

Carrie, here is something I wrote up earlier this year outlining the rationale for selecting the fate and transport segments. I am a little concerned that this table indicates 37 segments while Bruce keeps talking about 34. Am I missing something here? Let me know if you have any questions.

Thanks, Eric
